

SAT in cooperation with Khon Kaen University hold the 6th National Seed Technology Conference

The conference was held on 13-15 May 09 at Pullman Hotel, Khon Kaen Province with the attendance of 200 delegates from government and private sector.

The conference was aimed on experiences sharing in the field of seed business and new developed technologies among the participants in order to strengthen capability of Thai seed industry in world seed trade competition. These were conducted through the program of discussion, presentation and field excursion.

The 7th national Seed Technology Conference is looking forward to be held in May 2010 at Pitsanulok Province on the cooperation with Naresuan University that it would be again the event for seed technologists to participate.
